

## NOTICE OF IRRIGATION RULE CHANGE

Effective January 16, 2017 customers will only receive irrigation one day a week. We are sorry for any inconvenience this may cause.

- If one of your watering days fall between Monday 9:30am – Tuesday 9:30am, you will receive water one-time on that day during your regularly scheduled time.
- If one of your watering days fall between Thursday 9:30am – Friday 9:30am, you will receive water one-time on that day during your regularly scheduled time.

Customers and contractors may perform maintenance on Monday starting at 9:30am, Tuesday from 9:30am-3:00pm, & Thursday starting at 9:30am ending Friday at 9:30am. If your system is running outside your scheduled time and no maintenance is being performed, you will receive a warning which could progress into a penalty.

**Please do not adjust your time clocks if it is set according to the sticker on the inside of your time clock box. All customer irrigation systems will run in their normal time slots.**

With the cooler to colder temperatures we experience in the fall and winter, Florida plant life such as turf, shrubbery and trees go dormant. When they go dormant they only require half the amount of irrigation water that is required in the summer time. Once again, we apologize for any inconvenience.

If you have any questions or concerns, please feel free to contact James Mobley at (772) 340-0220.
